

Goopy Butter cake

Preheat oven to 350°

Prepare:

1 box Yellow Cake Mix

1 stick of butter

2 eggs

- Mix all ingredients above until well blended.
- Spread into a greased 9x13 pan. (I spray cooking spray onto my hands and spread the batter! It gets sticky)

1lb. box of powdered sugar

8oz. Cream Cheese

2 eggs

- Mix all ingredients above until well blended.
- Pour and spread on top of cake mixture.

Bake for 35-40 minutes until toothpick inserted comes out clean. Sift powdered sugar on top of cake once it's done. Enjoy.
